

### 3-2-1 Strategies for Care of Clothing Success

---

Write down three key ideas from what you have just learned, two ideas you would like to learn more about, and one concept or skill you think you have mastered.

The diagram illustrates the 3-2-1 strategy. It consists of three columns of rounded rectangular boxes. The first column has three boxes stacked vertically. The second column has two boxes stacked vertically. The third column has one box. A grey arrow points from the top box of the first column to the top box of the second column. Another grey arrow points from the middle box of the first column to the bottom box of the second column. A third grey arrow points from the bottom box of the first column to the bottom box of the second column. Finally, a grey arrow points from the right side of the second column to the box in the third column.
