## A Penny or \$10,000.00

Would you rather have $\$ 10,000.00$ per day for 30 days or a penny that doubled in value every day for 30 days? Select either the amount of $\$ 10,000.00$ or a penny and use the calendar to figure out your answer. Add up all the days of the month to compute the correct answer.

| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 8 | 9 | 10 | 11 | 12 | 13 | 14 |
| 15 | 16 | 17 | 18 | 19 | 20 | 21 |
| 22 | 23 |  |  | 26 | 28 |  |
| 29 | 30 |  |  |  |  |  |

1. Were you surprised with the results? Why?
2. Why is it important to financially plan for the future?
