

Components of a Strong Family Unit Project

You will work collaboratively in teams of two to create a story. You may use StoryBird at <http://storybird.com/accounts/signup/> to sign up for a free account and create your story or you may draw it free-hand.

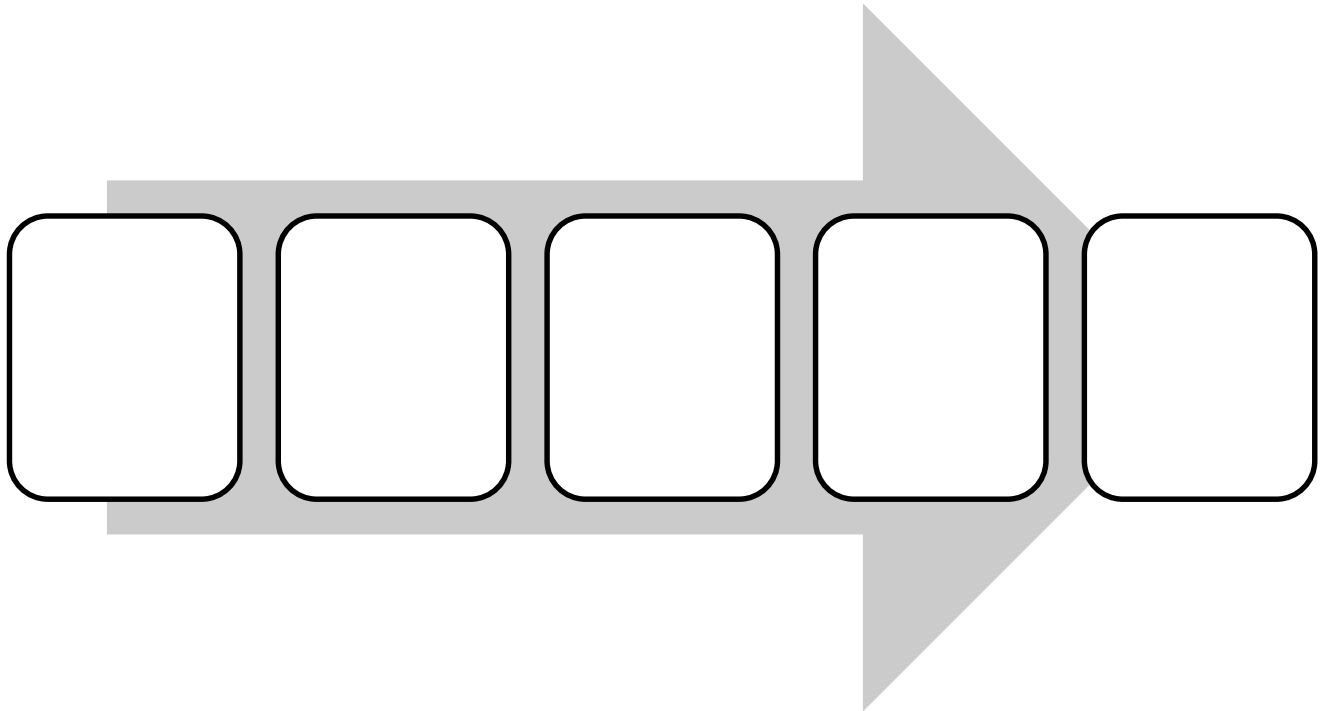

The story will consist of the components of a strong family unit including:

- Family life cycle
- Family structures
- Roles of an individual
- Ways to meet individual and family needs
- Resources and services available to the family
- Use of technology within the family unit

Please check your story for correct spelling, grammar and punctuation. Stories will be shared during Lesson Closure

You will be assessed with Rubric for Storytelling.

Draft an outline of your storyline below.

A large grey arrow pointing to the right, containing five empty rounded rectangular boxes for drafting a storyline outline.
