

Your Personal Style Project

Scenario: You would like to update your wardrobe and need assistance in selecting proper attire for upcoming job interviews. You have decided to hire a personal stylist from a large department store. The personal stylist has provided you with the form below.

After you have completed the form below, exchange your paper with another student. You will act as each other's "personal stylist." Your partner will select and display a proper wardrobe according to your needs and wants, and you will do the same for them. You may research the Internet or look through magazines or newspapers for wardrobe selections.

Select three complete outfits for your "client." You may prepare an electronic fashion story board utilizing Polyvore <http://www.polyvore.com/>, Glogster <http://edu.glogster.com/>, or an actual fashion story board displaying your "client's" wardrobe plan. Be prepared to share your product with the class.

Your project will be assessed with Rubric for Your Personal Style Project.
